Kasra R.Najafi

Front End Developer

09034184945   kasranajafi40@gmail.com   Tabriz

SUMMARY

Passionate Junior Web Developer with a love for crafting beautiful, responsive web experiences using React and Next.js. I thrive on bringing ideas to life with clean, efficient code and enjoy the process of turning complex problems into simple, elegant solutions. With a strong foundation in JavaScript and modern front-end tools, I'm always eager to dive into new challenges, learn, and grow alongside a team of like-minded developers.

EXPERIENCE

Front End Developer   Tabriz
Freelancer   04/2023 – present

- Developed dynamic and responsive web applications for various clients.
- Created interactive user interfaces using React.js, Next.js, Redux, and TypeScript.
- Designed sleek and efficient websites with Sass and Tailwind CSS.
- Ensured data validation and integrity through the use of Zod.
- Strongly grounded in HTML, CSS, and JavaScript fundamentals.
- Maintained effective time management to consistently meet project deadlines.
- Managed freelance projects from start to finish with successful outcomes.
- Focused on delivering user-friendly web applications that perform well on all devices.
- Excelled at problem-solving and resolving technical issues.
